Changing Voices of the Middle East Festival

By Now We Are All Familiar With The Trite Plot Line:
Rapacious Israelis murder innocent Arabs and steal their land

And the central theme of this play is a fictional mass slaughter of a hundred Arabs in their village during the War of Independence by an Israeli soldier. This is the third play Theater J has put on by the same Israeli author, an author who distorts Zionist history to make the Israelis brutal and barbaric and the Arabs their innocent victims. His plays have the same plot: Jews steal land from and murder innocent Arab victims. After three Israeli theaters refused to produce the play, Theater J decided to accept it. The point is, this is your money being used to produce this anti-Israel propaganda.
